Purpose

The purpose of this document is to identify the pre-licensure (PE) and continuing education (CE) topics NMLS has determined will satisfy the education requirements of the SAFE Act. This document also identifies specific topics that are required to be covered as part of annual CE. The required topics for CE are updated annually.

Background and Reason for this Document

In accordance with the SAFE Act, as a condition for acquiring a state-issued MLO license, individuals are required to complete 20 hours of pre-licensure education which shall include 3 hours of Federal Law, 3 hours of Ethics (which shall include fraud, consumer protection, and fair lending), 2 hours of Non-Traditional Mortgage Lending, and 12 hours of undefined education (electives). As a condition to maintain a state-issued MLO license, MLOs are required to complete 8 hours of annual continuing education which shall include 3 hours of Federal Law, 2 hours of Ethics (which shall include fraud, consumer protection, and fair lending), 2 hours of Non-Traditional Mortgage Lending, and 1 hour of undefined education (elective). In addition to the required hours as identified in the SAFE Act, state agencies can also establish additional requirements.

An initial version of this document was published to industry in April 2009, and was amended in 2012, and just included approved and not approved topics. Topics were not identified as being more suitable for PE or CE. This version of the document segments the topics by PE and CE and is intended to help reduce situations where CE is duplicative of PE. It is also intended to align with the new expanded test content outline. Topics have also been included which we believe will help to better inform individuals who are new to the industry of the phases of the mortgage lending process, the role of a mortgage loan originator (MLO), and how various laws and the MLO support consumer protection.

The approved topic list, especially the PE section, includes a significant number of topics and sub-points. We recognize it would be a challenge for any course provider to provide instruction on every point in 20 hours. Accordingly, as a condition for course approval not every topic is required to be included in course content. That said, this document does align with the expanded test content outline and there is an expectation that individuals taking and passing the MLO SAFE Test will possess sufficient knowledge on each of the published topical areas.

In coordination with state regulators and the Multi-State Mortgage Committee (MMC), annual continuing education is required to include specific topics that have been identified as reoccurring problems on mortgage exams. It is the view of NMLS that one of the intentions of the CE requirement of the SAFE Act was to ensure MLOs stay current on issues pertaining to the accepting and negotiating terms of a residential loan application. The topics listed as “required” will need to be covered in the designated calendar year. NMLS is not defining how much time must be spent on each of the required topics nor is it envisioned that the topics will consume the full two or three hours of ethics or federal law. However, with the continued input of state regulators and the
MMC, the topic list will be refreshed during the first quarter of every year and the new topics will be required to be instructed the following year (for example, topics have been identified in the 2021 version of this document are for instruction in 2021; during the first quarter of 2020 new topics will be published for instruction in 2021).

Required Topic Background – Who’s Requiring the CE Topics?

- **Required Topic:** (review time: 2 to 3 minutes)
  - The Multi-State Mortgage Committee (MMC) is comprised of 10 appointed State Regulator members and one Conference of State Bank Supervisors (CSBS) member. Their role is to implement cooperative protocol between state agencies and the financial industry.

  - An examination is completed by State Regulators to determine if a financial institution is operating in compliance with state and federal laws. A review of a financial institutions loans and corporate records are conducted to decide whether the entities are effectively meeting the requirement to operate, monitor, and control risks associated with loan origination activities.

Federal Mortgage-Related Laws – Topics Intended to Satisfy the 3 Hours of Federal Law

- **Required** Tolerance Violations - Regulation Z, 12 CFR § 1026.19(e)(3)(i) requires an estimated closing cost not exceed the amount originally disclosed, except as otherwise provided by regulation.
  - Purpose: **Creditor failed to cure zero tolerance charge(s) within 60 days of consummation.** For charges subject to zero tolerance, any amount charged beyond the amount disclosed on the loan estimate must be refunded to the consumer.
- **Required** 10% Tolerance Charge(s) - Regulation Z, 12 CFR § 1026.19(e)(3)(ii) requires an estimate be within a 10 percent limitation prescribed by the regulation.
  - Purpose: **Creditor failed to cure 10% tolerance charge(s) within 60 days of consummation.** For charges subject to a 10 percent cumulative tolerance, to the extent the total sum of the charges added together exceeds the sum of all such charges disclosed on the loan estimate by more than the 10 percent, the difference must be refunded to the consumer.
- **Required** Loan Estimates - Regulation Z, 12 CFR § 1026.19(e)(1)(iii) provides that the creditor shall deliver or place in the mail the disclosures required under § 1026.19(e), not later than the third business day after the creditor receives the consumer’s application.
  - Purpose: **Initial Loan Estimates were not delivered to the borrowers within the three-business day timeframe.**
- **Required** Recording Fee Cost on Closing Disclosure - Regulation Z, 12 CFR § 1026.38(g)(1)(i) states the creditor shall disclose certain information as applicable. Required information includes, under the master heading "Closing Cost Details", all costs in connection with the transaction, including taxes and other government fees.
  - Purpose: **Recording fees would be included as government fees.** The Companies
have failed to include the amount of each type of recording fee in the closing costs details section of the Closing Disclosure.

- **Required** Loan Estimate – Tolerance – Regulation Z, 12 CFR. § 1026.19(e)(3)(i) states that an estimated closing cost disclosed in the Loan Estimate is in good faith if the charge paid by or imposed on the consumer does not exceed the amount originally disclosed for a third-party service the consumer cannot shop for.
  
  o **Purpose:** Companies are failing to disclose properly.

- **Required** Closing Disclosure - Timing of Delivery - 12 CFR. § 1026.19(f)(1)(i) and (f)(1)(ii)(A) states, in a closed-end consumer credit transaction secured by real property, the creditor shall provide the consumer with the Closing Disclosure form reflecting the actual terms of the transaction and ensure that the consumer receives the Closing Disclosure no later than three business days before consummation.
  
  o **Purpose:** Companies are failing to deliver the Closing Disclosure on time.

- **Required** Accurately Completing the Closing Disclosure - Regulation Z, 12 CFR., § 1026.38 states that for each transaction subject to 1026.19(f) the creditor shall disclose the information required by subsection 1026.38 including an itemization of origination charges and lender credits. In addition, 1026.38(f)(5) states that the information required to be disclosed by paragraphs (j)—summary of borrower’s transaction—and (k)—summary of seller’s transaction—of this section may be disclosed on separate pages to the consumer and the seller, respectively, with the information required by the other paragraph left blank. The information disclosed to the consumer pursuant to paragraph (j) of this section must be disclosed on the same page as the information required by paragraph (i)—calculating cash to close—of this section.
  
  o **Purpose:** Companies provided borrowers with Closing Disclosures that inaccurately disclosed a Property Inspection Waiver (PIW). The fee is charged to Companies by Fannie Mae when it buys the loan on the secondary market that did not involve an appraisal. Since the PIW fee is a secondary market loan level price adjustment, and not a settlement fee, if the Companies want to pass it through to borrowers it must be included in Section A—Origination Charges—rather than Section B-Services You Cannot Shop For.

In addition, Companies disclosed borrower good faith deposits as “Lender Credits” on the Closing Disclosure. Lender credits are payments from the creditor to the borrower, not the application of upfront deposits collected from the consumer since these monies are sourced from the borrower not the lender. The good faith deposits from borrowers should be disclosed in the “borrower paid before closing” column on page two of the Closing Disclosure, or they could be disclosed as an “other credit” in section L on page three.

Finally, seller paid closing costs were not disclosed on Closing Disclosures provided to borrowers on purchase transactions. Regulation Z allows specific seller paid costs to be exempted from disclosure on the Closing Disclosure; however, all other charges must be disclosed. For example, Regulation Z, 12 C.F.R., §1026.38(g) states in part: (g) Closing cost details; other costs. Under the master heading “Closing Cost Details” disclosed pursuant to paragraph (f) of this section, with columns stating whether the charge was borrower-paid at or before closing, seller-paid at or before closing [emphasis added], or paid by others, all costs in connection with the transaction, other than those disclosed under paragraph (f) of this section, listed in a table with a heading disclosed as “Other Costs.”

This requirement, along with the limitation on the separation of borrower and seller
information addressed in § 1026.38(t)(5)(v), indicates that seller paid fees such as real estate commissions and escrow fees must be disclosed on page two of the borrower’s Closing Disclosure.

- **Required** Kickbacks and Unearned Fees - §1024.14(b) of RESPA states that no person shall give and no person shall accept any fee, kickback, or other thing of value pursuant to any agreement or understanding, oral or otherwise, that business incident to or part of a settlement service involving a federally related mortgage loan shall be referred to any person. Any referral of a settlement service is not a compensable service. §1024.14(a) states that any violation of this section is a violation of section 8 of RESPA. Please refer to the Marketing and Advertising findings for more detailed information. Enforcement or administrative actions may result from this violation.
  - Purpose: Companies who are receiving such prohibited kickbacks and unearned fees may result in a referral to the Non-Depository Supervisory Committee for a multi-state enforcement action. States may also choose to pursue enforcement or administrative actions separately.

- **Required** Third Party Service Fees in Excess of the Actual Cost - Pursuant to 12 C.F.R. § 1024.14 of RESPA, prohibits a lender from accepting any fees that are not for actual services performed.
  - Purpose: Companies are charging a Third Party Service Fees in excess of the actual cost. A charge by a person for which no or nominal services are performed or for which duplicative fees are charged is an unearned fee and violates this section.

  - Purpose: Companies are failing to properly obtain consumer’s consent to receive electronic records.

- **Required** Appraisal and/or Other Valuation - 12 C.F.R. § 1002.14(a)(1) requires that a creditor provide an applicant a copy of all appraisals and other written valuations developed in connection with an application for credit that is secured by a first lien on a dwelling. A creditor shall provide a copy of each appraisal or other written valuation promptly upon completion, or three business days prior to consummation of the transaction (closed-end credit), whichever is earlier. If the applicant provides a waiver and the transaction is not consummated, the creditor must provide these copies no later than 30 days after the creditor determines consummation will not occur.
  - Purpose: Companies are not providing an appraisal and/or other valuation properly or timely.

- **Required** Notice of Action Taken/Content - 12 C.F.R. § 1002.9(a)(2)(i), the Equal Credit Opportunity Act (ECOA), requires a creditor to notify the applicant of the specific reasons for the action taken. In addition, 12 C.F.R. § 1002.9(b)(2) requires the statement of reasons for adverse action required by paragraph (a)(2)(i) of this section to be specific and indicate the principal reason(s) for the adverse action.
  - Purpose: Companies are not providing the applicants with specific reasons for an action taken.
**Required** Notice of Action Taken/Timing - 12 C.F.R. § 1002.9(a)(1) requires a creditor to notify the applicant of the action taken within:

- 30 days after receiving a completed application concerning the creditor’s approval of, counteroffer to, or adverse action on the application;
- 30 days after taking adverse action on an incomplete application, unless notice is provided that the application is incomplete; or
- 90 days after notifying the applicant of a counteroffer if the applicant does not expressly accept or use the credit offered.

   **Purpose:** Companies are not properly notifying an applicant of an action taken within the required timeframe.

**Required** Ability to Repay - 12 C.F.R. § 1026.43(c)(1) states, "a creditor shall not make a loan that is a covered transaction unless the creditor makes a reasonable and good faith determination at or before consummation that the consumer will have a reasonable ability to repay the loan according to its term."

In making the repayment ability determination, 12 C.F.R. § 1026.43(c)(2) requires the creditor to consider the following:

The consumer’s current or reasonably expected income or assets, other than the value of the dwelling, including any real property attached to the dwelling, that secures the loan;

- If the creditor relies on income from the consumer's employment in determining repayment ability, the consumer's current employment status;
- The consumer's monthly payment on the covered transaction;
- The consumer's monthly payment on any simultaneous loan that the creditor knows or has reason to know will be made;
- The consumer's monthly payment for mortgage-related obligations;
- The consumer's current debt obligations, alimony, and child support;
- The consumer's monthly debt-to-income ratio or residual income; and
- The consumers credit history.

   **Purpose:** Companies are not reasonably determining the borrower’s ability to repay a loan.

**Required** Home Ownership Counseling List - 12 C.F.R. § 1024.20(a)(1) requires a lender, mortgage broker, or dealer to provide to the applicant, not later than three business days after it receives an application, or information sufficient to complete an application, with a clear and conspicuous written list of homeownership counseling organizations. The list must provide relevant counseling services in the loan applicant's location and be obtained no earlier than thirty (30) days prior to the time the list is provided to the applicant.

In addition, 12 C.F.R. §§ 1024.20(a)(1)(i) and (ii) state, the list shall be obtained from either the Web site maintained by the Consumer Financial Protection Bureau (Bureau), or from data made available by the Bureau or the Department of Housing and Urban Development (HUD).

   **Purpose:** Companies are failing to properly provide in a timely manner the list of counselors and/or providing an inaccurate list of counselors to an applicant.

   - In the loan files reviewed by examiners, it appeared the homeownership counseling was provided, but the list of homeownership counseling organizations provided were missing all the required information.
• **The Companies provided applicants with Homeownership Counseling Lists that did not appear to be within the appropriate distance from the applicants.**

• **Required** Provide Adequate Settlement Service Provider List - 12 CFR § 1026.19(e)(1)(vi)(C) requires the creditor to give the consumer a written list of settlement service providers of which the creditor is permitting them to shop for.
  - Creditor must identify at least one available provider for each service for which the consumer is permitted to shop
  - Written list must be disclosed pursuant to 12 CFR § 1026.37(f)(3)
  - Provide sufficient information to allow consumer to contact the provider
  - Include statement that consumer may choose a provider that is not included on the list
  - Must be provided to consumer within three days of application
  - **Purpose:** *Creditor failed to provide an adequate settlement service provider list to the consumer.*

• **Required** Disclose Additional Credit Terms in Advertisements - Regulation Z, 12 C.F.R., § 1026.24(d) states that if an advertisement includes any of the following terms:
