## **About this Catalog**

If you were required to take continuing education (CE) and failed to do so, you must complete a Late CE course in order to satisfy the requirement for licensure. If you are returning to the industry, the application process for a new license requires you to satisfy any CE deficiency for the last year in which you were licensed.

Late CE courses are configured such that upon completion, course credit will be retroactively applied to 2018, 2017, 2016, 2015, 2014, 2013, 2012, 2011 or 2010, depending on the needs of the particular MLO. States which do not allow an MLO to make-up a CE deficiency require the MLO to apply for a new license. The application process for a new license requires the MLO to satisfy any CE deficiency for the last year in which they maintain an active license. The courses listed in this catalog meet this requirement. If you are attempting to make up CE hours, either for the reinstatement period or were directed to take a late CE course by your state regulator, use this catalog to find a course provider and a course and then contact the provider to register, pay for, and then complete the course. *Pay close attention to any state-specific education requirements that you may need to satisfy.*
