

CREATING RELATIONSHIPS & SPONSORSHIPS

Once the company and individual have applied for their license in the appropriate state, the state may require that a relationship and sponsorship be established by the company. Establishing a [relationship](#) with an individual indicates to the regulator that the individual is employed by your company, whereas [sponsorship](#) indicates that the company will be supervising the individual's license. Only the company can establish a relationship and sponsorship. This guide also contains information on updating an employee's [worker classification](#).

Create a Company Relationship

1. Log in to your company NMLS account and confirm that the individual you need to establish a relationship has granted your company access. The steps below will walk you through confirming access.

Step 1: Click the **Filing** tab.

Step 2: Click the **Access** link in the sub-menu.

Step 3: Filter to obtain the list of access.

Below is a list of Individual records to which your company has access for the date range indicated. You can change the date range to a period not exceeding one year or filter by the Individual's LastName or NMLS ID. Select the checkbox in the Remove column and click **Remove** at the bottom of the page to remove access to an Individual record(s) for which your company does not have an active Company Relationship, Sponsorship, MU2 Association, or Federal Employment.

Access, which allows you to submit filings on behalf of the Individual, create test enrollments for the Individual and/or view their record within NMLS, is obtained when your company creates the Individual's record in NMLS or the Individual expressly grants your company access to their record.
