

COMPANY – INDIVIDUAL (MU4) FORM FILING

To submit a license request for an individual MLO through NMLS, follow the steps below. An Individual (MU4) Form must be submitted to each state regulator through NMLS. The state regulator will review the request, update the license status and set license items for additional information (if applicable) through NMLS. The [NMLS Policy Guidebook](#) is also available on the NMLS Resource Center if you have questions on how to complete any section of the Individual (MU4) Form.

Begin by consulting the license descriptions and requirements in the [State Licensing](#) section of the NMLS Resource Center. Any questions related to the type of license you wish to apply for should be directed to the appropriate state agency. The New Application Checklist will help you understand your regulator’s requirements for completing the Individual (MU4) Form in NMLS. The checklist also includes information your regulator may require outside NMLS in order to complete your application.

NOTE: Many state agencies require a passing score on the **National and State Components of the SAFE MLO Test**, as well as completion of **Pre-licensure Education** prior to submitting the Individual (MU4) application for licensure through NMLS. Visit the [Professional Standards](#) page of the [NMLS Resource Center](#) for details on completing these requirements.

Next Steps

The regulator will communicate with your MLO through NMLS by placing a license item(s) on their record. License items are typically set due to missing requirements and/or documentation. An email notification will be sent to the individual each time a license item(s) is set and/or the license status has changed. The company has the ability to review an individual's record using the Composite View tab in NMLS.
