

Nationwide Mortgage Licensing System & Registry (NMLS) Release 2010.2.2 – Release Notes

Release Date: June 5, 2010

These release notes describe the changes made to the Nationwide Mortgage Licensing System and Registry (NMLS) in Release 2010.2.2 on June 5, 2010.

SYSTEM CHANGES

SCR Number	SCR Title	Description
258,075 and 258,076	Change Individual Name Search from Contains to Starts With (with relevant Screen Text Changes)	Solution: Since users are experiencing system slowness and the “contains” search takes up more system resources than a “starts with” search, NMLS is being changed to execute the Individual Search as a “Starts With” search instead of a “Contains” search. Applicable text changes also will be made to clarify how Individual searches now will be conducted. Issue: A review of Individual Search patterns in NMLS revealed the vast majority of system users conducting individual searches by name use the individual’s full name or provide the letters the name “starts with”. Very few searches appeared to be conducted requiring results to be returned with names that contained the search string provided.
258,444	Certification Invoice notification text to be updated	Solution: Based on questions being posed to the NMLS Call Center, adjustments have been made to the text of the notification provided to the individual and companies with access to the individual when a Certification Invoice is created for the individual to clarify the certification and invoice payment process. Issue: The PE and Testing Certification process has generated a high volume of calls to the NMLS Call Center.
