System Maintenance Updates			
SCR Number	Category	Description	Context
19102	Account Administration	The message that displays when a support user selects to view the dashboard for a deleted user will be updated to include a period.	State
19480	Account Administration	NMLS will enable the 'Save changes' button instead of 'No changes' button when an individual with only a base record (no filings, tests or education) accesses the <i>Update User Profile</i> page and edits their name.	State
19159	Composite	The Branch Search Results will only display a branch manager when there is a branch manager with an active MU2 Association.	State
19165	Composite	The Company Search Results lists will display a company only once when the search by license number option is used, even if the company has multiple licenses that match the license number provided.	State
19642	Composite	Regulator users will be directed to the <i>Individual Snapshot</i> page when selecting the <i>View Individual Snapshot</i> link for a branch manager that has been removed on a branch filing.	State
19514	Display	NMLS will be updated to display the appropriate text on landing page buttons without truncating it when the page is resized in Firefox.	State and Federal
19333	Individual Form Filing: MU4	The individual pending filing refresh will always accept name changes made in different filings even when other changes are rejected during the refresh.	State
19746	Individual Form Filing: MU2	NMLS will present the <i>View Individual Snapshot</i> link on historical company filings, even for Indirect Owners or for Direct Owners that have been removed.	State
19910, 19959	Form filing: Registry Payments	Payments will be disassociated from the subcharge when a bulk cart payment is voided so the cart will not get stuck in processing causing users to be prevented from submitting MU4R filings until the cart is released.	Federal
19660	Notifications	NMLS will be enhanced to improve performance when a large volume of system emails are queued up to send.	State and Federal
