### System Maintenance Updates

SCR Number	Category	Description	Context
34456	Individual Snapshot - QI/BM state does not reflect as ended	The MU2 section of the Individual Snapshot will be updated to display the corresponding industry and state(s) with their associated start and end dates for each Qualifying Individual and Branch Manager association.	State

# System Maintenance Updates

<b>34551</b>	Disbursement Ledger Report - Return flag value incorrect for an Original payment	The Disbursement Ledger Report will be updated to only return an "R" for the Repayment Indicator for the obligation record.	State
<b>34575</b>	Federal Registration Reactivated - Test Expiration Clock Start Date is not set to null	The Test Expiration Clock start date should reset when an individual's federal registration is reactivated. Therefore, the federal registration reactivation logic will be updated to clear out the Test Expiration Clock start date when a reactivation occurs.	State
<b>34579</b>	Regulator unable to update license from one terminated status to another	The system will be updated to ensure a state regulator can change the terminal status of a previous license instance to a different terminal status even if the entity currently holds an active license of the same type.	State
<b>34739</b>	MCR Activity Report: Initial Filing Submitted Date and Company displaying incorrectly	The Mortgage Call Report (MCR) Activity (Regulator) Report will be updated to include a Residential Mortgage Loan Activity (RMLA) General for a company only if the corresponding RMLA for the state-specific report is also included.	State
<b>34836</b>	MCR: Initial Submission Timestamp not set for RMLA-G	For MCR Activity (Regulator) Report to display Initial Filing Submitted Date field properly, the reporting database will populate Initial Filing Submitted Date field for RMLA-General filings.	State
